

**Petition opposing the outline planning application from
Kiff and Troke Partnership for the development of
75 houses on land off Bury Close, Cottingham
(ref 14/00094/OUT) dated 28 Feb 2014**

Petition contains 489 signatures

(duplicates deleted where identified)

Pétition opposing the outline planning application from Kiff and Troke Partnership for the development of 75 houses on land off Bury Close, Cottingham (ref 14/00094/OUT) dated 28 Feb 2014

10
25/1

We the undersigned strongly object to this proposed development and demand the application is refused on the basis that the proposal:

1. is in all material aspects, a repeat of the application number 06/00094/OUT dated 16 March 2006 which was rejected. There are no changes in planning policies or guidelines that require the current application to be determined differently;
2. fails to comply with the economic, social and environmental aims and objectives of the National Planning Policy Framework;
3. contradicts Corby Borough Council's saved local plan policies contained within the North Northants Core Spatial Strategy, specifically Policies P1(E), P2(V) and P10(E);
4. cannot qualify for consideration under Policy P5(V) owing to the large scale of the development, its severe impact on the local environment, its special landscape value and there being no evidence of local need.

Petition opposing the outline planning application from Kiff and Troke Partnership for the development of 75 houses on land off Bury Close, Cottingham (ref 14/00094/OUT) dated 28 Feb 2014

CLIVE (3)

27/4

We the undersigned strongly object to this proposed development and demand the application is refused on the basis that the proposal:

1. is in all material aspects, a repeat of the application number 06/00094/OUT dated 16 March 2006 which was rejected. There are no changes in planning policies or guidelines that require the current application to be determined differently;
2. fails to comply with the economic, social and environmental aims and objectives of the National Planning Policy Framework;
3. contradicts Corby Borough Council's saved local plan policies contained within the North Northants Core Spatial Strategy, specifically Policies P1(E), P2(V) and P10(E);
4. cannot qualify for consideration under Policy P5(V) owing to the large scale of the development, its severe impact on the local environment, its special landscape value and there being no evidence of local need.

Petition opposing the outline planning application from Kiff and Troke Partnership for the development of 75 houses on land off Bury Close, Cottingham (ref 14/00094/OUT) dated 28 Feb 2014

✓ 22
28/3

We the undersigned strongly object to this proposed development and demand the application is refused on the basis that the proposal:

1. is in all material aspects, a repeat of the application number 06/00094/OUT dated 16 March 2006 which was rejected. There are no changes in planning policies or guidelines that require the current application to be determined differently;
2. fails to comply with the economic, social and environmental aims and objectives of the National Planning Policy Framework;
3. contradicts Corby Borough Council's saved local plan policies contained within the North Northants Core Spatial Strategy, specifically Policies P1(E), P2(V) and P10(E);
4. cannot qualify for consideration under Policy P5(V) owing to the large scale of the development, its severe impact on the local environment, its special landscape value and there being no evidence of local need.

Petition opposing the outline planning application from Kiff and Troke Partnership for the development of 75 houses on land off Bury Close, Cottingham (ref 14/00094/OUT) dated 28 Feb 2014

(35)

31/3

We the undersigned strongly object to this proposed development and demand the application is refused on the basis that the proposal:

1. is in all material aspects, a repeat of the application number 06/00094/OUT dated 16 March 2006 which was rejected. There are no changes in planning policies or guidelines that require the current application to be determined differently;
2. fails to comply with the economic, social and environmental aims and objectives of the National Planning Policy Framework;
3. contradicts Corby Borough Council's saved local plan policies contained within the North Northants Core Spatial Strategy, specifically Policies P1(E), P2(V) and P10(E);
4. cannot qualify for consideration under Policy P5(V) owing to the large scale of the development, its severe impact on the local environment, its special landscape value and there being no evidence of local need.
